## DETAILED ACTION

### *Information Disclosure Statement*

1. The information disclosure statement (IDS) submitted on 7/3/06 has been considered by the examiner.

### *Claim Rejections - 35 USC § 102*

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

3. Claims 1-19, 25, and 26 are rejected under 35 U.S.C. 102(e) as being anticipated by Lemieux (US 6,692,009 B2).

Lemieux discloses a ski for a snow vehicle, said ski comprising a longitudinal extending primary section 10 with forward curling section 22, first horizontal section 31, keel section 24, pair of first vertical sections 16 including a downward protrusion or lip 30b, apertures (or mounting portion) 34 for receiving a shaft (or support portion), an angled vertical portion (not numbered), a second horizontal section 33 with protrusion or lip 30a, wherein said second horizontal section is above and shorter than said first horizontal section, wherein said vertical sections include mounting portions 34 for receiving a steering mechanism, as shown in figures 1-6.

***Allowable Subject Matter***

4. Claims 20-24 and 27 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Response to Arguments***

5. Applicant's arguments filed 7/3/06 have been fully considered but they are not persuasive. With respect to the applicant's arguments concerning newly amended claims 1, 11, and 15, Lemieux does disclose apertures 34 in the vertical walls for receiving a shaft of a steering system. For these reasons the rejection stands.

***Conclusion***

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
